

1. Go to the website <http://www.pharm.am>

The screenshot shows the homepage of the Scientific Centre of Drug and Medical Technology Expertise after academician E. Gabrielyan CJSC. At the top right, there are flags for Armenia, Russia, and the UK, and a search bar. The main header features a circular logo on the left and contact information on the right. A navigation menu is located below the header. The main content area is divided into several sections: a news item about ISO/IEC 17025:2005 certification, a 'Dear friends' message, and a list of service buttons on the right side.

Dear friends

The main goal of The Scientific Center of Drug and Medical Technologies Expertise (SCDMTE) is the implementation of the national drug policy that provides availability of safe, effective and quality drugs in Armenia. The transparent and public work style is very important for us, therefore this website is envisaged to make the information and the feedback connection available.

Through this website you can find out the information about the activities, structure, current projects and reforms of the SCDMTE, as well as legislation and news relevant to the drug policy. In this updated website you can find numerous new links that can give you an integral idea about our work directed on drug quality assurance, as well as its rational and safe use.

We would be glad to get your comments regarding our website, which would help us in its further development.
